Visits to ^{the} national museum and galleries in England.

Nowadays people do not really enjoy going to ^{the} museums and galleries. Some of them are convinced that it is just a waste of time, others are simply not interested. But in my opinion more people would attend museums and enjoy them, if only they ~~had been~~ more exciting and thrilling. ^{were}

~~According to the data,~~ ^{people's} attendance of all museums and galleries in England increased from 2013 to 2017 by almost 2.5 mln people.

It shows that people are becoming more interested in culture. But museum's attendance rate differs. Some of them are having more and more visitors, while others are losing them. It appears that some areas of culture are more interesting for people than others.

Science museum's attendance in 2013 was 2,8 mln people, while British museum's attendance was only 2,6 mln people. But after 4 years the statistics has changed significantly. British museum's visitors increased by 3 mln, while science museum lost its 1,6 attendants. So in 2017 the difference between them was 4 mln people. There is almost the same situation with Tate Gallery and natural history museum.

In 2013 the difference between them was 2,8 mln people, while in 2015 and in 2017 it was only 0,3 mln people.
